DETAILED ACTION

Drawings

1. The drawings were received on July 19, 2005. These drawings are approved.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Membrino (US 3,353,661).

Membrino teaches a flexible package having mirror image bags **64,66**, the package comprising a back plastic sheet having a front and rear surface; a top edge engageable with a rack; a pair of perforation lines **72** separating the top edge from a remainder of the back plastic sheet; each of two front plastic sheets having a front and rear surface and attached at side and bottom edges and not at a top edge to corresponding edges of the back plastic sheet with the rear surface of each front plastic sheet adjacent to the front surface of the remainder of the back plastic sheet to form a pouch therewith, the front plastic sheets are sized so that the top edge of each front plastic sheet is below the perforation of the back plastic sheet to leave a flap portion of the remainder of the back plastic sheet that may fold over the edge of each front plastic sheet to cover the top edge of each front plastic sheet and so that the front surface of each flap portion may fold about the front portion of each front plastic sheet to touch at a contact area near the top edge of each front plastic sheet. Membrino does not teach at least one resealable adhesive strip positioned on the contact area to resealably hold the flap portion closed against the front plastic sheet.

Art Unit: 3727

Richmond teaches it is known to provide at least one resealable adhesive strip positioned on a contact area between a front sheet and back sheet flap to resealably hold the flap portion closed against the front plastic sheet.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to apply the teaching of at least one resealable adhesive strip positioned on the contact area to resealably hold the flap portion closed against the front plastic sheet. Doing so ensures the bag remains closed until it is desired to open it and the contents remains therein.

Response to Arguments

4. Applicant's arguments, see page 6, paragraph 1, filed July 19, 2005, with respect to the rejection(s) of claim(s) 1 under 35 USC 103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Membrino in combination with Richmond.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Art Unit: 3727

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Various prior art closures teaching features similar to those disclosed and/or claimed are cited for their disclosures.

7. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (571) 273-8300. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.

8. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:

I hereby certify that this correspondence for Application Serial No. _____ is being facsimiled to The U.S. Patent and Trademark Office via fax number 571-273-8300 on the date shown below:

Typed or printed name of person signing this certificate
